Examiner:

Title: THICK-FILM FLUID HEATER AND CONTINUOUS  
HEATING DEVICE

Commissioner for Patents  
PO Box 1450  
Alexandria, VA 22313-1450

**SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT**

Sir:

In accordance with 37 C.F.R. 1.98, I am submitting a completed "SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" (*Form PTO/SB/08A*) with patents and/or publications as delineated therein attached.

EP 0 686 815 discloses the heating element (11) has a flow pipe (120 for the fluid medium (19), heated on the outside by a resistance heating element (14) in the form of a wound band. The heating is controlled by an electronic temp. regulation circuit (28), mounted on a printed circuit board (23) on the outside of the pipe, coupled to a temp. sensor (26) within the pipe. The semiconductor power components controlled by the temp. regulating circuit are thermically coupled to the flow pipe via a heat sink element (18), so that their waste heat is dissipated via the heated flow medium.

If no translation of pertinent portions of any foreign language patents or publications mentioned within the "SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" is included with the aforementioned copies of those applications, patents and/or publications, it is because no existing translation is readily available to the Applicants.

Attorney Docket No.: 2003P01973WOUS

As per the Notice in 1273 OG 55 (August 5, 2003) no copies of any above-mentioned US patents and US patent application publications are submitted for this application which was filed after June 30, 2003.

Respectfully submitted

  
Russell W. Warnock
